I have been hearing about the Cash App for a while now, but I wasn't sure if it was legit or safe.
The app seems to have a bad rap since scammers like use the app to target unsuspecting users.

But the truth is, there are scammers using every money app you can think of, so it's not fair to

associate Cash App with these scams (I'll show you how to avoid those later).

So I decided to download the app to get the full experience and let my readers know if there are legitimate ways to get free money on Cash App instantly.

So far I am pleasantly surprised with the app and excited to share the details with you below.

Cash App is a free money management app that allows you to send and receive money virtually, accept direct deposits, transfer money to and from your bank accounts, and invest money in the stock market and Bitcoin. There are different ways to get free money on Cash App as long as you protect it as you would your wallet.

In this Cash App review I'll answer questions like:

Is Cash App legitimate? Absolutely. If you use Cash App for the purposes it was intended for (to buy/sell, manage deposits, and invest), you will have no trouble with it. It's a legit virtual wallet for your money.

Is Cash App safe? Absolutely. As long as you avoid sending money to strangers who are trying to scam you (if it sounds too good to be true, it probably is), then Cash App is safe to use. Be sure to always know who is on the receiving end of your cash before hitting "send."
